Ultra Lite All Purpose Ready Mix
Ultra Lite-Weight Ready Mix

Our ultra lite-weight formula weighs up to 40% less than standard weight ready mix. This product has its own special features and a nine-month shelf life under good storing and application conditions. For product availability, call your local sales representative.

Features
- Weighs up to 40% less than standard weight ready mix – the lightest formula available
- Delivers it all – the only product you will need for the job
- Provides excellent bond
- Allows more open time
- Pulls and sands easily
- Excellent for use in all taping and finishing tools

Basic Uses
ProForm® Ultra Lite All Purpose Ready Mix Joint Compound is designed for all phases of finishing, including taping, texturing, topping, filling, patching, skimimming and laminating. Ultra Lite is designed to be used in all taping and finishing tools.

Storage
Storage life varies with climatic conditions, up to nine months under good conditions. Store compound away from extreme cold or heat to avoid accelerating aging. Regularly check production dates and rotate inventory on a first-in, first-out plan.

Applications
Works well for all phases of finishing, from embedding joint tape to final coats.
